

# AMBER WILSON

Junior, Missouri State University

2011 iLead Application

# A LITTLE ABOUT ME...

- ◉ I am a junior in the sports medicine and athletic training program at Missouri State University in Springfield.
- ◉ I chose to pursue a degree in athletic training because I enjoy helping others and being around athletics.
- ◉ I've always had an interest in healthcare, and I couldn't turn down the opportunity to work with athletes and provide healthcare for them.

# WHY I WOULD LIKE TO BE SELECTED...

I have become a proven leader in my program of study and have been actively involved in our student organization at Missouri State. As a first year I was selected as “first year of the year” in a class that started with 38 students. As a second year stepped into a leadership role and became the treasurer of our student organization (ATSA). This is my third year, and I am currently the vice president of ATSA. These leadership roles have enabled me to become a better communicator, and have sparked my interest in leading others after I graduate. I have previously attended the District V meetings in 2009 and 2010, the state meetings in 2009 and 2010, and the national convention in 2009. I really enjoy attending these meetings and meeting new people as well as learning about their athletic training experiences. I would love to have the opportunity to attend the 2011 iLead conference to network and learn more about leading in this profession! Thank you for considering me for this opportunity.
